Getting Started

Conventions Used in this Guide

Attention

Pay Special Attention: Instructions that are important to remember and may prevent mistakes.

Caution: Information that, if not followed, may result in damage to the product.

Safety Precautions

The following precautions should be observed in handling the speaker described in this guide:

Place the speakers on a flat , level and stable surface.

Do not place the speakers in environments subject to mist, smoke, vibration, excessive dust, salty or greasy air, or other corrosive gases and fumes.

Do not drop or jolt the speakers.

Do not allow anything to drop into the subwoofer case through its ventilator, as it could result in fatal electric shock or fire.

Place the unit far enough from other equipments for good heat dissipation.

Disconnect the AC power cord from the AC outlet before performing any maintenance on the speakers.

Do not perform any maintenance with wet hand.

Prevent foreign substance, such as water, other liquids or chemicals, from entering the speakers while performing maintenance procedures on the speakers.

Chapter 1. How to Handle Defective Returns

1.1 Overview

1.2 Problems

Item	Problem descriptions
1.2.1	<u>Power LED (indicator) unlight</u>
1.2.2	<u>Does not work or one channel no sound</u>
1.2.3	<u>Noise</u>

Please follow the numbered sequence marked withing parenthesis given in individual Flow chart, in that this is the best-recommended sequence to rectify the problems.

Attention

1.2.1 Power LED (indicator) unlight

1.2.2 Does not work jor jone channel no sound

1.2.3 Noise

Chapter 2. Specifications

Satellite

No	DESCRIPTION	UNIT	NOMINAL				LIMIT
			R	L			
1.	RATED OUTPUT POWER @THD 10%	W	0.8	0.8			>2
2.	CHANNEL SEPARATION(ONE CHANNEL IN; OTHER CHANNEL INPUT SHORTING)	dB	50	50			>35
3.	DISTORTION(AT REFERENCE Pout)	%	0.6	0.6			<1
4.	S/N @RATED O/P POWER	dB	70	70			>50
5.	FREQUENCY RESPONSE (AT REF Pout=0dB)		FL	FH	FL	FH	
		Hz	150	20K	150	20K	
6.	SENSITIVITY (AT THD=10%)	mV	480	480			450~550
7.	HUM NOISE (VR MAX) (VOLUME MAX; INPUT SHORTING)	mV	1.4	1.4			< 2
8.	HUM NOISE (VR MIN) (VOLUME MIN. INPUT SHORTING)	mV	0.6	0.6			<1

Chapter 5. Part List**Subwoofer**

Ref. No.	Description	RS Part No.	Qty/unit
1	Decoration Circle	11310133	1
2	Plastic Panel	11310368	1
3	Speaker Driver Unit	11110082	1
4	Plastic Back Panel	11310395	1
5	Screw-fix Back panel	11410044	4
6	key knob	11320048	1
7	EVA Mat	11820089	4
8	Transformer	11120081	1
9	PCB Assembly	14800046	1

Satellite

Ref. No.	Description	RS Part No.	Qty/unit
1	Decoration Circle	11310133	1
2	Plastic Panel	11310369	1
3	Speaker Driver Unit	11110082	1
4	Plastic Back Panel	11310137	1
5	Screw-fix Back panel	11410044	4
6	EVA Mat	11820089	4

Chapter 6. Important Notes**6.1 Packing requirement for sending the PCB assembly by post**

PCB assembly is a kind of sophisticated electronic circuit board. Well packing Will be required when sending them by post.

*Some sophisticated IC components are mounted on the PCB assembly, hence it is necessary to pack each PCB assembly with a separate static protecting bag, in order to avoid static electricity.

*Reliable external packing is also very important when sending the PCB assembly by post, in that it would avoid unnecessarily lost or damage.

6.2 Short of spare parts while repairing a speaker system

If you are short of spare parts when you have some speaker systems waiting to be repaired, it would be recommended to take the necessary parts from one Speaker system, so that you may have the as many speaker systems

Chapter 7. Circuit schematic
