Getting Started

Conventions Used in this Guide

Attention

Pay Special Attention: Instructions that are important to remember and may prevent mistakes.

Caution: Information that, if not followed, may result in damage to the product.

Safety Precautions

The following precautions should be observed in handling the speaker described in this guide:

Place the speakers on a flat , level and stable surface.

Do not place the speakers in environments subject to mist, smoke, vibration, excessive dust, salty or greasy air, or other corrosive gases and fumes.

Do not drop or jolt the speakers.

Do not allow anything to drop into the subwoofer case through its ventilator, as it could result in fatal electric shock or fire.

Place the unit far enough from other equipments for good heat dissipation.

Disconnect the AC power cord from the AC outlet before performing any maintenance on the speakers.

Do not perform any maintenance with wet hand.

Prevent foreign substance, such as water, other liquids or chemicals, from entering the speakers while performing maintenance procedures on the speakers.

Chapter 1. How to Handle Defective Returns

1.1 Overview

1.2 Problems

Item	Problem descriptions
1.2.1	<u>Power LED (indicator) unlight</u>
1.2.2	<u>Does not work or one channel no sound</u>
1.2.3	<u>Noise</u>

Please follow the numbered sequence marked withing parenthesis given in individual Flow chart, in that this is the best-recommended sequence to rectify the problems.

Attention

1.2.1 Power LED (indicator) unlight

1.2.2 Does not work jor jone channel no sound

1.2.3 Noise

Chapter 2. Specifications
Satellite

No	DESCRIPTION	UNIT	NOMINAL				LIMIT
			R		L		
1.	RATED OUTPUT POWER @THD 10%	W	2.3		2.3		>2
2.	CHANNEL SEPARATION(ONE CHANNEL IN; OTHER CHANNEL INPUT SHORTING)	dB	38		38		>35
3.	DISTORTION(AT REFERENCE Pout)	%	0.5		0.5		<1
4.	S/N @RATED O/P POWER	dB	65		65		>50
5.	FREQUENCY RESPONSE (AT REF Pout=0dB)		FL	FH	FL	FH	
		Hz	100	18K	100	18K	
6.	SENSITIVITY (AT THD=10%)	mV	540		540		500~600
7.	HUM NOISE (VR MAX) (VOLUME MAX; INPUT SHORTING)	mV	1.5		1.5		<2
8.	HUM NOISE (VR MIN) (VOLUME MIN. INPUT SHORTING)	mV	0.5		0.5		<1

Chapter 5. Part List
Subwoofer

Ref. No.	Description	RS Part No.	Qty/unit
1	Plastic Panel	11310372	1
2	Speaker Driver Unit	11110158	1
3	Screw-fix Speaker Driver Unit	11410063	4
4	Fake treble speaker driver.	11110157	1
5	EVA Mat	11820005	4
6	Woodem case	14040002	1
7	Transformer	11120079	1
8	Back panel	14040002	1
9	Power Wire	11210028	1
10	Power Switch	11250004	1
11	PCB Assembly	14080002	1
12	Volume knob	11320006	1
13	Port	11350058	1
15	Screw-fix Back panel	11410011	6

6	Woodem case	14040001	1
7	Signal cable	11240047	1

Chapter 6. Important Notes**6.1 Packing requirement for sending the PCB assembly by post**

PCB assembly is a kind of sophisticated electronic circuit board. Well packing Will be required when sending them by post.

*Some sophisticated IC components are mounted on the PCB assembly, hence it is necessary to pack each PCB assembly with a separate static protecting bag, in order to avoid static electricity.

*Reliable external packing is also very important when sending the PCB assembly by post, in that it would avoid unnecessarily lost or damage.

6.2 Short of spare parts while repairing a speaker system

If you are short of spare parts when you have some speaker systems waiting to be repaired, it would be recommended to take the necessary parts from one Speaker system, so that you may have the as many speaker systems

Chapter 7. Circuit schematic
